BRASS TALL CABINET

\$16,390

DESCRIPTION

Imposing and elegant, this superb tall cabinet will imbue a modern and classic living room or dining room with sophistication and luxurious flair. The simple rectangular structure with two doors is crafted of ash wood resting on a plinth base. The entire piece is coated with a striking sheet of brass that was finished to achieve an ethereal and refined moon-like texture, adding a superb touch to any environment. The two asymmetrical handles add a contemporary accent to the piece, which is part of the Milan Design Week 2018 collection.
