BRASS VASE N.1

\$2,640

DESCRIPTION

Distinguished for its highly contemporary and elegant design, this handmade vase will be a striking centerpiece on a modern console or minimalist coffee table. Fashioned of nickel-plated brass, this vase takes on a dynamic shape whose smooth contours recall a dorsal fin, catching the eye with its movement. The long sides of the vase are finished with a white varnish that elegantly contrasts with the brass for a striking textural effect. A small opening at the top makes this piece suitable for showcasing tall-stemmed flowers.
