BREAD KNIFE WITH CORNOTECH HANDLE

\$205

DESCRIPTION

This excellent bread knife was made by the hands of one individual artisan, according to an age-old tradition. It is ideal also to cut cakes and other tall and layered baked goods requiring a serrated blade, that in this case is in stainless steel. The riveted handle is in cornotech, a new material made of durable lucite, that has the appearance of ox horn, in this case in a pleasing light shade, accented by three nails.
