BRECCIA SCULPTURE

\$3,865

DESCRIPTION

Exuding an explosive character, this sculpture features a cube-shaped base symbolizing the seed from which it was born. The piece is distinguished by a stunning crack that breaks through its sleek surface, and a sinuous, unknotted plant-shaped silhouette. Handmade of iron and finished with clear protective paint, it was showcased at the 24th International Art Show of Innsbruck in 2020. Any imperfection is a testament to its unique, handcrafted nature.
