BRIDGE SET OF POUF AND COFFEE TABLE

\$6,165

DESCRIPTION

Perfect for rustic lounge areas, this nesting set is a showcase of artisan woodworking mastery. The large pouf equipped with concealed wooden structure and elastic suspensions is upholstered in brown leather (removable), allowing one to sit while sipping a cup of tea using the essential coffee table (5cm thick). Crafted of solid durmast in a special variant called "bricola" - so-named for the corrosion caused by lagoon mollusks - the table is treated with clear, natural oil. Other upholsteries are available, please contact the Concierge.
