BRIK LIGHT BLUE JUG

\$125

DESCRIPTION

A pure, simple approach to design that displays the unique quality of artisanal production, this jug transforms an item of common use into a refined piece of art. Handcrafted of ceramic, the light blue exterior and white interior results from three consecutive glaze firings that enhance the glossy finish and add durability. The smooth, elegant lines showcase a wide handle and spout masterfully crafted to make it easy to hold and direct the liquid straight into the cup. This jug will make an elegant addition when serving milk or juice at the end of meals or morning breakfasts.
