BRISTOL BRONZE ARMCHAIR BY ENRICO BALERI

\$8,910

DESCRIPTION

The Bristol armchair is an innovative design by Enrico Baleri that revisits the classic Chesterfield style with contemporary taste. With plenty of space for two people, this armchair features a wooden structure upholstered in modern fabric in a shiny bronze color that contrasts with the sober lines of the tufted back and the pleated front panels of the armrests. Entirely padded with expanded polyurethane and Dacron, this armchair is raised on spherical wooden feet with black lacquered finish. It can be customized in synthetic material, leather, eco-leather, and customer's own fabric.
