## BROCHÉ ZEBRATA FRAMED VINTAGE TEXTILE ART

\$1,170

### DESCRIPTION

Part of the decorative elements from the set of "L'incantatrice di serpenti", this canvas pays homage to jewelry, a symbol of power and seduction. The pure viscose canvas depicts three lined-up brooches holding a zebra, the original design printed in high definition and finished by hand with mauve brushstrokes and pictorial details over a deep blue backplash. The canvas is fixed to the frame of recovered wood from planks holding up the scenery flats, using the typical square-head nails used on theatre stages.
