Fuda Marmi by Atelier Design Lab

BRUNELLESCHI TABLE

\$8,670

DESCRIPTION

Inspired by Brunelleschi, the master of early Renaissance architecture, this table was designed by Joe Gentile and Fabio Crippa of Studio ADL. The black Tekeze marble top displays a unique silhouette, with a finish at the edges that makes it resemble an elongated diamond. The base is in metal with a striking "goldenshades" silver finish that complements the top, both in color and shape, with its straight lines and minimalist silhouette.
