BUBBLE S WINE GLASS

\$75

DESCRIPTION

Part of the Bubble collection, this wine glass is a one-of-a-kind example of architectural design applied to an everyday object. Playing on the concepts of emptiness and fullness, this piece was mouth blown and handcrafted of borosilicate glass. Its standout element is the large bowl, that seems precariously balanced on its stem, creating a bubble of air. Either alone or combined with the other pieces of different sizes, this glass will add elegance to any table.
