BUBBLE XL WINE GLASS

\$95

DESCRIPTION

An exercise in elegant minimalism, this wine glass is part of the Bubble collection. It was made entirely of borosilicate glass that was mouth blown and worked by hand. This one-of-a-kind piece features a large and thin round base supporting an irregular stem on which the bowl is balanced in an asymmetrical way. This unique design captures the moment in which the bubble of glass hardens, creating a striking effect.
