BURANO TABLE

\$10,440

DESCRIPTION

Entirely crafted and painted by hand, this impressive table will bring stately elegance to any dining room with its 18th century Venetian style. A curvaceous, elongated quatrefoil-shaped top is supported by long elegant legs showcasing a large globe evoking the shape of needle lace used to create the world-renowned Burano laces. The pale sky blue of the top and creamy white of the legs are inspired by the traditional Venetian colors and have an antiqued finish to highlight the unique character of the piece. Ask the Concierge for color and size customization.
