**BUTLER SATIN BRASS UMBRELLA STAND BY RICHARD HUTTEN**

\$1,370

## DESCRIPTION

This exquisite umbrella stand was crafted entirely in brass with a satin finish and its simple silhouette evokes the shape of an upside-down umbrella resting on a round base. The functional cone has a generous size, while the vertical element that supports it features a small horizontal element that can be used to temporarily store small everyday objects. Functional and elegant, this piece will make a contemporary statement in an entryway.
