**BUTTERFLIES JAR #2**

\$190

## DESCRIPTION

Reminiscent of iconic 1950s tableware designs, this whimsical ceramic jar is a dynamic dance of colors on a white glazed surface. Decorated with charming drawings of butterflies framed in a scalloped design using gradients of yellow, red, green, blue and orange, this piece is inspired by the childhood idea of capturing butterflies in a glass jar. Livia Baldanza's signature is painted with a brush under the base.
