BUTTERFLY GOLD EARRINGS

\$190

DESCRIPTION

These elegant earrings were crafted of gold-plated brass and inspired by the majestic dance of a butterfly. A lovely addition to any modern woman's jewelry box, this pair is both bold and delicate. Each piece is made of a single line that bends in sinuous curves to recreate one butterfly wing so that the two pieces complete each other for a full effect. Sure to be eye-catching both during a casual brunch and on a special evening occasion, these earrings can also be a well-received gift.
