BYRON NICKEL DINING CHAIR

\$870

DESCRIPTION

Part of the Byron Collection, this dining chair boasts mid-century charm revisited with a contemporary aesthetic. The elegant and light structure is crafted from a solid die-cast aluminum slab with a striking satin nickel finish to give it an industrial allure. The tapered, slanted legs support a simple seat with a curved back, mirrored in the curved line of the top backrest. This elegant piece can be combined with the various dining tables made by the same designer.
