CABANA IN GOLDEN BEACH BY CRISTINA CELESTINO

\$1,170

DESCRIPTION

The protagonist of Cabana is a natural and luxuriant wilderness. This wallpaper sets out to be an authentic praise of “vagabonds” (to quote Gilles Clement): wild plants constantly on the move. A colorful “out of scale” fan-shaped flora plays peek-a-boo between the geometric stripes of an accurately drawn background. The design may differ depending on the number of panels required. The minimum order per panel is W90 x H280 cm. Price is per square meter. Please ask Concierge for customization.
