Fratelli Boffi

CABINET IN FURS WHITE CABINET BY ANALOGIA PROJECT

\$4,455

DESCRIPTION

Combining the luxurious feel of fur with an environmentally friendly faux fur material, this cabinet will imbue with elegance a rustic or modern interior, while also equipping it with unique storage space. Unconventionally shaped as a cylinder, this cabinet is made of wood with a natural walnut top and mirrored plinth base, whose smooth surface strikingly contrasts with the plush texture of the faux fur in an ivory hue. Inside, the interior is finished with lacquer Pantone 315C and with oak shelves.
