CANAPÉ CACTUS SOFA BY MAURIZIO GALANTE

\$32,045

DESCRIPTION

An amazing statement-making addition to a modern living room or office, this sofa features a life-like prickly patch of cacti, where sitting on thorns becomes playful and ironic. This exclusive design by fashion designer Maurizio Galante rests on a wooden base padded with high-density structural polyurethane foam covering with internal support steel frame. The removable cover is fashioned of a special bi-elastic fabric that reproduces the graphic print of the spiny succulent in a three-dimensional effect. Also available in matching Tattoo pouf.
