CANDELABBRO GOLD CANDLE HOLDER

\$190

DESCRIPTION

Crafted entirely of porcelain with a stunning gold finish, this playful piece was shaped as a mouth ("labbro" in Italian meaning "lip") that opens just enough to contain a candle. One of the two sides of the mouth is charmingly half-smiling and can be used to move the candle holder from room to room. Elegant and contemporary, this piece will be ideal on a modern table on any occasion, either alone or combined with its silver or red version.
