## CANDELABBRO RED CANDLE HOLDER

\$160

### DESCRIPTION

Part of the CandelabBro collection, this candle holder is a playful and contemporary interpretation of the old-fashioned holder that would allow the candle to be carried from room to room. This piece was crafted entirely of fine porcelain with a striking red finish and is shaped as two lips opening just enough to contain the base of the candle, with a half smile that can be comfortably held. Also available with gold and silver finish.
