**\$36,230**

## DESCRIPTION

A magnificent accent piece that will enrich the look of a modern, eclectic interior, this table is part of a limited edition series that celebrates Sicilian art. Honoring the tradition of "cantastorie," singer-songwriters who kept oral tales alive for generations, this piece will be the focal point of a dining room with its vivid colors and fresh allure. The legs are crafted of copper-colored steel, supporting a 10 cm-thick wooden top divided into four elements adorned with steel inlays in baked enamel entirely hand-decorated by artist Michelangelo Lacagnina.
