CAOS MEDIA CABINET BY MAESTRO GUERRIERO

\$5,790

DESCRIPTION

Sculptural volumes and architectural lines are the defining features of this unique media cabinet that doubles as a bookcase. Fit for a modern home, this statement-making piece has a steel frame finished in a vibrant cobalt-blue and is marked by a dynamic combination of geometric volumes. The A-shaped base supports a circular frame divided in a series of shelves against the bright blue backdrop. A central yellow shelf, two white wooden panels with two 50-Watt stereo digital audio speakers, and an APT-X bluetooth input complete this stunning design. Wood finish can be customized upon request.
