CAPRI SILVER RING WITH GREED JADE

\$260

DESCRIPTION

Evoking, with its delicate color combinations and structural silhouette the mesmerizing landscape of the island of Capri, which gives its name to this stunning series of jewels, this ring will bring a fresh and summery accent to a pastel-colored attire. Entirely made of silver, this piece features a stylized interpretation of a home perched on top of a terraced hill. The splendid green jade that adorns its top, as a hypnotic dome to the small house, complete the piece, adding a colorful reminder of the pure waters of the Mediterranean.
