Royal Trunk

CAPRI TRUNK SPECIAL EDITION

\$37,370

DESCRIPTION

Capri is a well-known holiday resort with breathtaking scenery and iconic style. It inspired our Capri trunk Speciale, which is a bigger version of the well-known Capri trunk. It is an elegant corner on wheels with a three-sided opening, door handles and classic locks. A precious piece of furniture made of quality materials and studied in all its details. The use of rare marble and wood species makes the product unique. The thoughtful layout of the internal spaces includes cup holders and bottle holders with useful leather straps for adjustment. A central room enriched by a game of mirrors and lights is designed as a comfortable work surface. At the bottom of it we find a drawer with a soft-closing closure that can be fitted internally with a series of tools for the preparation of cocktails and wine. All of these tools are made of horn of Zebu and Onyx, and they are handmade in our laboratory. Externally, the product is covered with leather and embellished with the chosen materials, selected from marble to precious woods.
