**CAPRICCIO DIAMANTE BOTTLE IN PLATINUM**

\$1,416

## DESCRIPTION

Part of the Capriccio collection, this bottle was entirely made in crystal, sculpted in solid glass in the shape of a multi-faceted diamond stone. Its unique texture was entirely hand painted with platinum, including its lid, to create a striking effect that will complement any decor with its elegant and luxurious feel. Particularly suitable to store and serve whiskeys and other liqueurs, this piece can be combined with others from the same series for a more complete look.
