Bragagnolo Argenti

CARAFE N.2

\$290

DESCRIPTION

Precious and timeless, this carafe is silver-plated with a copper core to preserve the silver's antibacterial and purifying quality without compromising the aesthetic result. The hammered finish enhances the sleek geometric silhouette and demi-lune handle that is connected to the body by a flat element at the base and a slanted top visually following the handle's line. With a maximum capacity of 1.5 liters, this carafe is an elegant and functional solution for the everyday table.
