CARPE DIEM SCULPTURE

\$87,840

DESCRIPTION

Brimming with eclectic charm, this slender sculpture named after the Latin phrase "seize the day" is sure to be the focal point of an opulent living room or master bedroom. The column and the cushion-shaped element fashioned of Red Languedoc marble display a creased look, exemplifying the artist's mastery together with the hyperrealistic arm in white Carrara marble that incorporates a base of minute flowers and leaves. Two fingers seize the precious element in Belgian Black marble.
