### CARRARA MARBLE AND BRASS SCONCE

\$1,670

#### DESCRIPTION

Distinguished by a highly geometrical, compact silhouette, this remarkable sconce is characterized by sharp lines that are elegantly softened by the charm of white Carrara marble and golden reflections of brass. Ideally suitable for a contemporary interior, it features a brass structure composed of a slightly curved back panel and a sturdy arm, sustaining a thin layer of marble on which a radiant ambient light is reflected through a G9 LED lightbulb. Other finishes are available upon request to the Concierge.
