Il Bronzetto

CARRUBO 1 CHANDELIER

\$7,030

DESCRIPTION

This magnificent chandelier is made entirely in brass and its structure reproduces the texture and shape of a carob tree. The semi-spherical bottom element deflects the light, while the branch-like stems supports decorative elements in the shape of carob pods, attached on metal loops and vividly rendered in all their details. Playful and sophisticated at the same time, this piece exudes timeless allure and will complement any decor.
