Paola Paronetto

CARTOCCI LISCIA WHITE AND GOLD DECORATIVE BOTTLE #1

\$485

DESCRIPTION

Part of the Cartocci Collection, this bottle has a smooth surface and a pure white finish that is adorned sparsely with gold geometric shapes. The sculptural quality of this exquisite piece is derived from paper clay: using traditional crafting techniques, ceramist Paola Paronetto has achieved this tactile quality by adding cellulose and natural fibers to the clay base. This sculpture can be arranged with others from the same collection to create a glamorous focal point in any room.
