CARTOCCI WHITE AND GOLD BOWL #2

\$645

DESCRIPTION

Fashioned entirely by hand, this irregularly shaped bowl will be a timeless centerpiece in a modern dining room, living room, or entryway. Characterized by a unique three-dimensional texture, it features expressive horizontal and vertical ridges and a striking panel insert in gold, the differing patterns and colors producing a dynamic textural contrast. This refined piece is made of paper clay, a compound whereby paper pulp and natural fibers are blended into the ceramic mixture to achieve a distinctly textured finish.
