CARTONE SCULPTURE

\$480

DESCRIPTION

This striking object can be used as a sculpture or vase for dried flowers, since no water should be added in. Its asymmetrical silhouette is adorned with different colors applied over the ceramic slip cover and is enlivened with unique etched textures that add more charm to the piece. Inspired by the Japanese concept of beauty as imperfect and transitory, each mark makes it more precious: a one-of-a-kind work of art to adorn a contemporary or eclectic home.
