CARYLLON DINING TABLE BY CRISTINA CELESTINO

\$11,945

DESCRIPTION

This bold and sophisticated table was designed in 2018 by Cristina Celestino. The retro allure of this piece is conveyed by the square section of the structure, in striking contrast with the rich decorative treatment of its surface, the round corners at the top, and curved base. The top is adorned with a handcrafted straw inlay inspired by straw marquetry and tinted in vivid red, as in the Art Deco style. A homage to the founder of Thonet, Michael Thonet who was a cabinetmaker, this solid wood table is available in two different shapes - rectangular and round .
