CASQUETS DINNER PLATE N. 6

\$110

DESCRIPTION

A dramatic scene of a shipwreck is the powerful central subject of this magnificent porcelain plate, a detail of a vintage print elegantly framed by a black and white decoration of triangles. Part of the Casquets Collection introduced at Masion&Objet 2019 in Paris, this stunning plate harmoniously unites the geometric rigor of the rim, complete with accents in gold, and the old charm and naturalistic elegance of the main decoration. Either in multiples or combined with other designs in the same series, this plate will add a striking accent on a modern or classic table.
