CATENE SCARLATTO CAKE STAND BY GIO PONTI

\$250

DESCRIPTION

Sleek and contemporary the pattern that adorns this elegant cake stand was created in 1926 by iconic designer Gio Ponti, when he was the creative director of the brand. Named after the word for chains in Italian, the Catene collection boast a pattern of connected rectangles resembling the links of a chain, in this case in a vivid shade of red. The decor splendidly contrasts with the classic silhouette of the pieces which, like this stand, are round and delicate, marked with gold details. The refined items in porcelain can be combined to create a magnificent display.
