## CATENE SMERALDO SET OF 2 TEA CUPS AND SAUCERS BY GIO PONTI

\$395

### DESCRIPTION

Elevating a simple activity to rich ritual, with elegance and sophistication becoming part of everyday life, this set of teacup and saucer is a superb addition to a personal collection. The 220 cc cup and its D 13.5 cm plate are part of the Catene collection, a series of porcelain tableware items that boast classic silhouettes and a modern decoration, named after the Italian word for chains. Designed by master Gio Ponti in 1926, this decoration is a repetition of rectangles linked together to create a minimalist garland, here with a stunning emerald green color.
