CAVI VASE #2

\$1,460

DESCRIPTION

Innovative design and bold aesthetics combine in this unique vase that will enliven the decor of any modern home. This mono-flower vase is crafted of locally sourced Lavagna stone in a fusion of two geometrical shapes: a cylinder with thin engraved stripes encased in a rectangular frame separated by a brass plate. The juxtaposition of the metal's polished finish and raw, fine-grained slate creates an overall captivating effect. Striking on its own, this vase will create a glamorous accent on a side table, console or bookshelf when displayed with other vases from the same Cavi collection.
