CECILE DOUBLE TABLE LAMP

\$3,240

DESCRIPTION

Part of the Cecile collection of lighting, this lamp features two LED lights, each covered with a round, textured plexiglas shade, mounted on a square structure in brass. The two shades project their light at different angles, for a very versatile effect and are supported by a central vertical element in brass, stemming from a round base covered in marble. The interplay between round and square elements creates a stunningly modern piece that will enrich any decor.
