## CECILE SQUARE CEILING LAMP

\$6,090

### DESCRIPTION

This exquisite lamp was entirely made of brass. It is attached to the ceiling through a square base, from which two vertical elements hang, creating a minimalist structure with four arms that create a square silhouette, hanging at different heights at 90 degrees angles from each other, each supporting a light. The shades of the lights are in polycarbonate, a thermoplastic material that is durable and resistant, and have an ice-like finish.
