CELESTIAL SET OF 2 BLUE DESSERT PLATES WITH CRACKLED RIM

\$550

DESCRIPTION

First introduced at Milan Design Week 2018, this set of two dinner plates flaunts minute, handmade decorations worthy of true objets d'art. A speckled motif in dappled blue surrounds the central azure splotch, creating a solid chromatic focus visually balancing the general overview. A precious craquelure border accented with 24K gold leaf seals the design with unexpected luminosity. Slight differences from the pictured item are a testament to their artisan quality. Not microwave safe.
