## CEMENT GRAY TABLE LAMP

\$945

### DESCRIPTION

The Cement lamp is inspired by ceramics and the organic forms created during pottery wheel throwing and play. The final silhouette is then created with cement molded in a silicon cast produced using an old porcelain electrical insulator. The concrete has a wax finish and a silky touch. The light bulb fixture and the visible stem are made from copper and the texture of the pure linen or rattan lampshade complements beautifully with the cement base. Ask Concierge for details.

### DETAILS & DIMENSIONS

- Material: Cement
- Dimensions (in): W 12.99 x D 9.06 x H 22.83
- Dimensions (cm): W 33 x D 23 x H 58
- Handmade In Italy
