### CERAMIC VASE WITH LEAVES IN HIGH RELIEF

\$1,120

#### DESCRIPTION

An elegant juxtaposition of form and color, this lovely ceramic vase exudes classical allure. Bold frond elements in high relief accented in lavish gold-coin dance across the surface of the vase, creating alluring color contrast and textural depth. The distinctive conical shape with its narrow base and delicately tapered, gold-rimmed mouth imbue the work with an uncharacteristic lightness and dynamism. Perfect as a centerpiece on a table or an entryway console, this piece is sure to impress.
