CHEST OF DRAWERS WITH MARBLE AND BRASS

\$9,550

DESCRIPTION

This magnificent chest of drawers has a wooden structure strikingly plated in marble and brass with legs entirely made in brass with a brushed finish. Inspired by the Egyptian style of the beginning of the 19th century, this piece features Portoro marble (other marbles are available upon request) that was worked according to an ancient and complex technique that is now almost lost. The top drawer and the bottom are covered in highly textured brass.
