CHEVIOT DINING TABLE BY GIANNELLA VENTURA

\$27,035

DESCRIPTION

An exquisitely eccentric design characterizes this one-off dining table. Its top displays an inlaid wood structure that is widely customizable in other wood finishes or lacquers, while the support metal basement has a brass finish and comprises two intriguing layered structures tapering downwards into stripe-shaped legs. The table top can be requested in beveled glass or in wood enriched with decorated glass. Other prized metal finishes are available upon request, please inquire with the Concierge.
