CHIARA LANTERN

\$2,160

DESCRIPTION

This elegant lantern has an unmistakable marine flair and boasts a heart of frosted Murano glass, mouth-blown according to centuries-old traditions, whose elongated shape is framed by a brass structure. The light within is rechargeable, making this stunning piece a very functional object to be used everywhere around the house and displayed among other decorative pieces. The central band of the glass shade can be highlighted with one of the 21 colors available in Purho's collection for a striking touch.
