CHIMERA CHANDELIER

\$13,150

DESCRIPTION

This modern design is a homage to the designs and style of the '60s. This chandelier is built on a modular element: a curved stripe of Venetian glass in an elegant light grey hue fixed on the chromed metal structure with the use of a screw. The result is a sinuous silhouette that is dynamic and, because of its modular design, can be completely customized in size and shape. It can be used as an accent piece in a large entryway or reduced in size to fit a smaller area.
