CHROMA TIMELESS TABLE

\$9,850

DESCRIPTION

A testament to the masterful craftsmanship and creativity of Salvatore Spano, this rectangular table will be the protagonist of any dining room in both modern and rustic-chic decors. Entirely handcrafted, it combines a traditional frame crafted using Aframosia, a rare, fine-grained African wood prized for its warm crimson-brown color, and a wooden top marled by horizontal bands of bright golden-brown and dark streaks. Designed as a symbolic bridge between classic and modern styles, this table embodies the philosophy of the collection which uses reclaimed wood as a sustainable choice.
