CIOCAT COFFEE TABLE #2

\$26,930

DESCRIPTION

CIOCAT from the LAPIS collection. CIOCAT means "wood log" and in fact, it is a wonderful coffee table. The cylindrical brass element hides small wheels, able to move the table in any environment, effortlessly. The petrified wood of the table, after a long period of fossilization, shows us some natural micro-veining inside that make it unrepeatable. Each piece is unique. The image is for illustration purposes and the product, live, could be slightly different.
