CIOCCOLATA BOOKCASE BY AZIZ SARIYER

\$16,110

DESCRIPTION

Born from the creative mind of famous designer Aziz Saryer, this bookcase is crafted entirely of aluminum with a dark silver finish and it's distinguished for its challenging curves and thin profile. Three horizontal folds are intersected vertically by a long fold to form six shelves in a design that evokes the shape of a chocolate bar. This symmetric silhouette is the perfect choice to display books and collectibles in a contemporary living room or private office.
